BUSINESS JOENSUU

***Your growth story
is ready to start.***

TAKE A STEP FORWARD

Our service portfolio covers the entire life cycle of your company.

New companies and entrepreneurs

We will help you start your company and get your business operations up and running. We provide support in practical matters related to the establishment of a company, and coach you forward. Where appropriate, we offer support in securing investors and capital. Through us, you can also find business facilities.

Active companies

We support growth and profitability. We assist your company in all phases: from drafting a business plan to the acquisition of competence and financing, and from productisation to business transfer. We support expansion into new markets and internationalisation.

Organisations planning the geographic location

We can help you to locate into and do business in our competent and friendly region. We make it easy for companies, investors and experts to move into the region.

Business groups

We support groups of companies by developing the business sectors and generating new business together with educational and research organisations.

Concrete results for your business in a targeted way, or long-term effects on the region's entire business environment. Whichever is the case – do not hesitate to contact us!
